Annual Escrow Account Disclosure Statement - Account History

The following is an overview of your escrow account with Shellpoint Mortgage Servicing. It contains the history of escrow payments made on your behalf in the prior year, and a snapshot of the anticipated disbursements for the coming year. Any potential adjustments due to increases or decreases with your escrow items may affect your monthly escrow payment. If your escrow payment increases, your monthly payment will also increase. If the escrow payment decreases, your mortgage payment will decrease.

Cushion Calculation: Because Shellpoint Mortgage Servicing does not set your tax amounts or insurance premiums, your escrow balance contains a cushion of 586.39. A cushion is an additional amount of funds held in your escrow in order to prevent the balance from becoming overdrawn when an increase in the disbursement amount occurs. Your lowest monthly balance should not be below 586.39 or 1/6 of the anticipated payment from the account.

Your ending balance from the last month of the account history (escrow balance anticipated) is 969.93. Your starting balance (escrow balance required) according to this analysis should be \$1,466.01. This means you have a shortage of 496.08. This shortage may be collected from you over a period of 12 months or more unless the shortage is less than 1 month's deposit, in which case we have the additional option of requesting payment within 30 days. We have decided to collect it over 12 months. We anticipate the total of your coming year bills to be \$3,518.33. We divide that amount by the number of payments expected during the coming year to obtain your escrow payment.

New Escrow Payment Calculation

Unadjusted Escrow Payment	\$293.19
Surplus Reduction:	\$0.00
Shortage Installment:	\$41.34
